

# Summer Internship

## Composition of the Program

The Summer Internship is a six-week program structured to be a blessing and to help the local ministry while also helping you to grow in your personal leadership and spiritual development.

***The dates for the 2016 Summer Internship program are June 28 - August 9.***

### **Program Overview**

#### Classroom Studies

Interns will spend several hours daily in classroom instruction.

Spanish - Daily instruction for 1.5 - 2 hours

Evangelism and Discipleship training - 2 hours weekly

Additional periodic studies in Missions and the History & Culture of the DR

#### Missions Involvement

You will be a part of all weekly staff meetings and will be considered as an equal. Along the way, the church planting team will share with you strategies and philosophies of church planting.

Hands-on activities may include work projects such as cleaning, painting, and construction. Evangelistic programs include children's ministries and tract distribution. Interns may also serve at the *Lifehouse* children's home, Christian school, women's rescue shelter, baseball ministry, and more.

Mentorship and discipleship times are a key aspect of this program of building humble, vibrant, visionary leaders and cooperative, committed, courageous, followers. They will return to the States with a greater commitment to worldwide missions.

While the work will be intense, you will also have off days so you can relax or enjoy the many activities the country has to offer. Regular fellowship time with the internship team will also be planned.

Above all else, Daystar wants you to be able to walk away from the internship closer in your walk to God. It is also the aim to give you the best possible internship experience, so that you can accurately assess if God is calling you into missions.

#### Cultural Adventure

Interns will study, minister, and live immersed in the Dominican culture. They will develop a love and an appreciation for individuals of other cultures and gain a greater understanding of the challenges in reaching the world for Jesus Christ.

Interspersed with this program will be ministry activities, recreational activities, cultural tours, and trips to the capital, villages, beach, mountains, and other ministries.
